

The new city council held its first regular meeting Monday evening. Regular routine business was transacted. The Sentinel was again designated the official paper of the city contrary to the established rule of the city council that the two papers alternate as official paper. It was the Courier's turn this year. We don't mind being licked on a proposition of this kind, but we want a "square deal"—which we didn't get this time. The Courier extends its thanks to Aldermen Houghton and Johnson for their support. Aldermen Marquardt, Greenland and W. H. Butler supported the Sentinel.
