

Prof. Bolley especially hopes to hear at once from any farmers who think they have a crop which will furnish good seed for the coming year.

SPECIAL SCHOOL NOTICE.

All persons interested will please take notice that our school will open for next year on Monday, September 12th. The Board has made a special effort to secure the very best teachers, each one being specially prepared for the position they are to fill, and are looking forward to the most successful and profitable year in the history of the school. And they respectfully ask, and assuredly expect the co-operation of all patrons to secure this result. The season is early, and harvest and other work is well advanced. School opens late, and it is hoped that every pupil will be ready to enter on the first day and get the full year's work. The Board particularly request that all first beginners be entered on the first day, or as soon after as possible. And on account of not being able to admit new pupils to the beginners' class during the year, all children who are coming into school

age during the first part of the year, will be admitted on the first day. BEAR THIS IN MIND. Let it be remembered that our high school is classified by the State Board as first class. And its diploma admits to college or university. Manual training and domestic science were introduced last year, and will be given larger place this year, adding much interest and value to the already excellent course of study. A hearty invitation is extended to all pupils in the county who are prepared to enter high school.

Dated Cooperstown, N. D., August 22nd, 1910.

By the Board of Education.

OSCAR D. PURINTON,
Clerk.
