

Serious Accident.

While coming from Finley in his automobile last Thursday just about dusk H. A. Sundin met with a very serious accident. There was a stick of cordwood in the road about four feet long and very crooked. Mr. Sundin tried to dodge it but didn't and the piece of wood flew up and struck him in the face inflicting very serious injury. His face below the eye was cut open necessitating the doctor taking up five or six stitches and one eye is badly damaged. Just as the accident occurred Mr. Sundin shut off the gasoline and the car ran into a plowed field and stopped and Mr. Sundin lapsed into unconsciousness. His wife was with him but luckily escaped injury. Help was summoned and Dr. Brimi went out to afford medical relief. It was the greatest wonder in the world that the automobile was not turned over in the deal as Mr. Sundin was in no condition to handle the car after he was struck and the only way we can figure it out that the car was stopped, was that the jar in striking the stick of wood must have jammed the throttle down. We sincerely hope that Mr. Sundin will not sustain any permanent injury from the accident.
