

Bold Holdup at Valley City.

County Attorney Tufte of Griggs county arrived at North Valley City yesterday shortly after noon over the SoD line from Minot, and as the street car was not running he started to walk over. He was joined by another whom he supposed had also come in on the train and during their walk the political situation was taken up. Tufte defending Gov. Burke which the other seemed to take exceptions to. Just as they had crossed the wagon bridge another appeared on the scene from the bushes and at once an attack was made on Mr. Tufte. He was struck on the head, knocked down and his pockets rifled, relieving him of about \$140. After threatening him with torture and death they disappeared into the woods on the south side of the river going west. Mr. Tufte immediately came to the city and reported to the officers and a searching party was started out, several parties were picked up but they did not prove to be the right ones.—Times-Record, June 10.
