

A. H. Berg last week resigned as member of the board of education and Mr. Lewis Berg has been appointed to fill the vacancy. The outgoing member has been a good one on the board and has always had the welfare of our schools at heart. On account of his long absence from the city he evidently deemed it proper to resign and give someone an opportunity to attend to the affairs of the office who was here. His successor appointed is one who will be equally anxious to give his best service and if he accepts the appointment we are confident that he will do so.
