

F. G. Killeran was stricken with paralysis last Sunday evening. He had been down east Burrell avenue to see a man on some business and when a few feet the other side of Carlander's house he was stricken. It seemed to affect the lower part of his body. He could get up and go about ten feet, then he could not go any further. Art Carlander came along and helped him as far as the Palace Hotel then got some more help and Mr. Killeran was carried to his home. We are pleased to state that he is improving and sincerely hope that he will fully recover. Mr. Killeran is one of the most energetic men of his age we have in this city and inactivity does not go well with him. We are always glad to receive a business visit from him and hope that he will come soon and often.
