## LOVELL FARMERS' CLUB HELD MEETING.

There was a meeting of the Lovell Farmers' club on Monday night and the following subjects were discussed: Alfalfa, timothy, brome-grass and the different kinds of millet.

The subject of rural telephones was then brought up. The members think the present system of rent is unreasonable and are now talking of organizing a farmers' cooperative telephone company or go in with the Hannaford company. There not being many present the subject was carried over to some future meeting when it is hoped there will be a larger attendance present.

A. M. Detwiler, Secy.
