

Albert Ness, the young man who was injured by falling from a load of hay several days ago, is getting along very nicely now and is up and around again. He was in a very serious condition for several days and nothing but the best of medical care and nursing brought him through. Dr. Brimi was the physician in charge of this case instead of Dr. Almklöv as reported in this paper last week. Mrs. Stengele is deserving of great credit for the care and attention she gave Mr. Ness while he was in bed and needed nursing.
