

At the meeting of the Commercial Club last Monday evening the matter of electric lights, organization, etc., were gone into very thoroughly, and it was finally decided to elect a delegate to send out to investigate and report to the Club on all matters on which information is desired, so that the members might more understandingly go about forming a company or taking up any other matter in connection therewith. Andy Goff was chosen to make the investigating trip. The matter of an artesian well was dropped. It was decided to recommend to the village board that the square formed by the crossing of Burrel avenue and 9th street be paved this year, this being in accordance with the recommendation of the committee on permanent improvements. The committee also recommended that the matter of incorporating as a city be presented to the village board, but this was laid over until the next meeting.
