

## DR. KERR DEAD.

Word was received by telegram by citizens of Cooperstown Tuesday morning announcing the death of Dr. Thos. F. Kerr, whose demise occurred in New York City last Sunday morning. Doctor Kerr has many friends not only in this city but on the prairies of Griggs county who will regret to hear of his death. He was a kindly, polished gentleman, and in the early pioneer days, when he was a practicing physician in this city, he had made many long "cold" drives out on the prairies to lend aid and attention to the poorer classes who in those days were not able to pay for medical care. He was large hearted and kind and no matter whether the blizzard raged or how bad the roads, he always responded to a call and thousands of dollars worth of work done by him were never entered upon his books. He was a man of learning, and while he was his own worst enemy he was nevertheless one of nature's noblemen. The Courier editor remembers many kindly deeds done by Dr. Kerr and we regret exceedingly to hear of his passing away.
