

The High School Glee Club went down to Dazey last Friday and presented their entertainment and were well pleased at the courtesies extended by the citizens of Dazey who put forth every effort to make the visit of the boys pleasant and patronized the entertainment liberally. The club was billed for Hannaford Saturday night and the people treated them very cordially with one exception, and that one was the principal of the school, Mr. Frederickson, who had a grouch on and used every effort to make the entertainment a fizzle going so far as to have the handbills taken down that had been posted to announce the event. We don't know this professor but we will guarantee that he is a narrow-minded individual or he would not act in such a foolish manner. In justice to the people of Hannaford who are in no way to blame for the actions of this man we want to express thanks for the kindnesses advanced to the boys during their brief visit to the town. At Binford a cordial welcome was extended to the Cooperstown bunch and they did not imagine for one moment that the glee club was going to walk off with any of their high school pupils or the school building. The boys are creating a fund for athletics and use this method of getting them. It is up to Prof. Frederickson to wake up and broaden out a little in his ideas. Don't be a clam.
