

Chas. S. Gillespie, who has been the efficient manager of the Trimble-Winton Lumber Co. at this point for the past five years and a half, has resigned his position at this place and will accept a position with another company somewhere near Calgary in Alberta, Canada. Mr. Gillespie expects to leave this city about the 15th of July. Mr. and Mrs. Gillespie have made many friends in Cooperstown who, while regretting their removal from our city, wish them good luck wherever they make their home. They are good people and stand for everything that is good in the community.
