

The Ball Hill Sverdrup Farmers Club held another meeting at the Westley schoolhouse last Saturday. It was well attended. Several things came up for discussion and much interest was shown. Copies of bills introduced in the legislature were received from Representative Everson. These will be investigated and action will be taken regarding bills which is thought to deserve the approval of the club. The topic of discussion decided on for the next meeting was "How can we raise the best corn and in what ways can it be most profitably used?" The next meeting will be held at the Westley schoolhouse February 1.
