

The Commercial Club held an important meeting in the fire hall Monday evening of this week. The matter of helping out in the arrangements for holding farmers' institutes (the governor vetoed the appropriation for this purpose) around the state was discussed and it was voted that the club donate \$100 toward this fund. This is a progressive move on the part of the commercial club and if every town and city in the state donated proportionately to their ability a good fund could be raised for taking care of the institute work in the state. The matter of having market days was also discussed and it was the sense of the meeting that Cooperstown take up the matter with neighboring towns and a committee was appointed to look after this matter. W. H. Butler was appointed a committee to go to Fargo to attend a meeting of the commercial club of that city to be held the 27th for the purpose of raising a fund for institute work. Our Commercial club is alive to the needs of the times and is doing what it can to help out in every direction.
