

The city council met in regular monthly session Monday evening of this week. The usual routine of business such as allowing bills, etc., was transacted. The council also changes the boundaries of the third ward by enlarging it. That portion of town lying west of eighth street has been taken from the first ward and added to the third ward. This takes in all the voters in the southwest part of the city, where Dr. Winsloe and all that settlement live. The first ward was too large in proportion to the third and it was thought best to equalize them. Those who have been annexed to the third ward and formerly voted in the first ward will now vote at Berg Bros.' office instead of Von Blon's ~~office~~ as heretofore.
