

B. A. Parsons has resigned ~~his~~ position with the Griggs County Telephone company to take effect on April 1st. Mr. Parsons has been with the company for the past two years and during that time he has put the telephone system in first-class condition, better than it has been at any time since the system was established. He is a first-class man in his line and the patrons of the telephone company regret to see him sever his connection with that institution.
