

Mr. and Mrs. A. L. Knutson's little two-year-old son while playing around the store last Saturday, took a large drink of gasoline and for a time he was a very sick little boy. His mother noticed him gasping for breath and he was quickly hustled over to Dr. Almklov's office for treatment and it kept the doctor hustling for a few minutes to treat the little boy. We are glad to say that the little fellow is about all right again and the parents can be pleased at the fact that he did not drink something worse than gasoline, which is bad enough.
