

A horse hitched to a buggy belonging to Emil Simonson ran away last Thursday afternoon in the fair grounds and created quite a little damage. One of the fells of the buggy came down and frightened the animal who tore madly through the large crowd at the fair grounds and crashed into a bunch of people who were watching the races. Mrs. Theo. Thompson and baby and L. Stokkeland was in the path of the runaway horse. Mrs. Thompson was struck and thrown across some other rig and was badly bruised up necessitating the attention of a physician, but we are pleased to state no bones were broken. She threw her baby ahead of her and it fortunately escaped injury. Mr. Stokkeland did not fare so well. He sustained the breaking of three ribs and his collar bone. The buggy was smashed up considerably. It was a bad runaway and it is lucky more people were not injured.
