

School Notes.

Mrs. J. Houghton and Mrs J. Brown were visitors at our school this week. Visitors are always welcome.

Those on the sick list are: Vernie Hodgeman, Freddie Stevens, Sigurd Lunde and Clara Bergstrom.

The drawing classes are steadily improving under the careful directions of Miss McPartlin.

The high school has just begun sketching from life. Elizabeth Patterson served as a charming model on Friday last. The younger scholars are "writing pictures" and "drawing poems."

Miss Mable Taft has returned to school. Our high school is increasing, twenty-six being registered.

The eighth grade has had a perfect attendance for the past month. We are very proud of our eighth grade pupils. The high school did not do so well. Their attendance was 97.36 per cent.

Freeman Bolkan entered the eight grade Monday morning. We will soon need more seats in the Assembly hall.

Rev. Orchard gave us an excellent address Monday, which was enjoyed by all. The only fault we could find with him was because he did not talk longer. He spoke on, "Grit, Grace and Gumption." The school certainly appreciates things of this kind.
