

Diphtheria Victim.

The little three year old son of Mr. and Mrs. Tom Hare died Tuesday evening from diphtheria. The little one had been sick several days and when the doctor was called the disease had gotten too strong a hold on the system and would not yield to anti-tonine. One of the other children had recovered from the disease and another one is reported to be sick. It is hard luck for the Hare family and they have the sympathy of their friends.
