

---

—Valley City Times Record: Seth D. Curry, of Bellvyrria, was in the city Saturday. He came down on the sad errand of seeing that one Alfred Anderson was examined by the insane board, and they decided he was a proper person to go to Jamestown. Young Anderson three months ago knew nothing of the English alphabet or language, and up to a few days before he was brought to this city, he had mastered everything up to the third reader. But the task was so great it caused brain trouble, but it is hoped the splendid treatment under Dr. Archibald will restore him to his right mind.
