

COLGATE.

Martin Donahue visited town this week. He is out on his claim on Sec. 26.

Miss Anne Dorrance is visiting her brothers and will probably stay with them during the summer.

Miss Liza King will commence school next week.

Mr. C. L. Williams, and his Michigan bride, have moved to their farm near town.

Gorden Jefferson reports all well at the bachelors hall. One of his colts got badly cut on a wire fence but is doing well.

Wm. McKay is planting trees on his tree claim on sec. 34, and Joseph Quamme is helping him.

A wild man passed through town a few days ago, when near Page he threw his grip, coat, vest and quite a number of articles into the ditch and went on quite mad. We understand that the section foreman on the G. N. R. found them and brought them home.

A. King's smiling face is seen in town once a week. He wears a fine new hat on top of his working clothes.

Wm. Orser has a fine stock of gloves, that are going off like hot cakes.

May 5, 1891.
