

—Percy R. Trubshaw, of the Griggs Courier, came over from Cooperstown last Monday to witness the ball game. Percy informs us that the fellow who was talking of starting an opposition paper over there turned out a "dead beat", leaving many bills unsettled when leaving the town. He worked several of the people over there successfully for stuff—and it serves 'em right. They should have stuck by their old friend the Courier, and not follow after false gods. Percy gives the people over there an excellent newspaper, of which all of them should be proud.
