A new plan has been tried this term. The pupils were encouraged to cultivate portions of the fire-break. An observer may now see little "gardens," each marked by a shingle on which is written the owners name. In these are thriving peas, beans, onions, turnips and other vegetables and flowers. Their growth and development are watched with interest. Each pupil has the privilege also of bringing house plants for school room decoration. All these add an interest to school life and a zest to the daily round of lesson getting.

MRS. H. A. BEMIS, teacher.
