The lessons in the Natural Room commence this week. An hour will be devoted to them every Friday afternoon. The tools have all arrived.

The last meeting of the Debating Club was well attended. The debate, "Resolved that savage nations possess no right to the soil," was decided in favor of the affirmative.

At the start, the society decided not to allow visitors until they have had some practice. It is merely for improvement and some of the pupils do not feel like having a large audience at first.
