

—Hillsboro Cor. Fargo Forum: The Hope Pioneer has the announcement that L. E. Marsh, Hope's popular principal of public schools, is to be a candidate for county superintendent this coming June. Steele has no better man and it is to the people of Steele county's interest to see that he is elected. He is a thorough scholar, gentleman, and has studied law so that he can if he wishes be now admitted to the bar, and is a man that would do honor to the office and the best service to the people and give them an officer that they can well be proud of. We hope he will be elected and that all necessary means and advantages that chance to fall to the luck of a lucky candidate may attend his campaign—not even omitting the advantages of candidacy of Mrs. Hoag.
