

—In another column appears the announcement of the Railroad commissioners, informing the citizens along the lines of the Great Northern of the dates when they will visit the respective towns. The date for Hope is the 15th of July, at 5 o'clock p. m. It is to be presumed that with the experience the citizens had with entertaining them a year ago, the citizens of Hope will not call a mass meeting of citizens to wait upon them this trip in order to state our grievances. A committee was appointed at that time, which entertained them royally, and afterward a meeting was held, when numerous grievances against our railway accommodations was brought before that august body, and they promised to see that certain things were remedied. We never even heard from them on the matters afterward, and things remain as they were before.
