

---

—Mr. John Van Dusen, Sr., sustained a severe loss, last Tuesday afternoon, by the burning of his barn, containing between three and four thousand bushels of wheat, and a considerable amount of barley, oats and hay. The fire caught while Mr. Van Dusen was away from home, and the first intimation that was had of the fire, Mrs. Van Dusen looked out at the window and discovered it in flames. How the fire originated is a mystery. The wheat and barley will not be a total loss, as much of it can be used for feed. No insurance on barn nor grain.
