
LEAL NOTES.

The Leal Milling Co's machinery has arrived and they are placing it in position as fast as possible.

H. A. Hilborns wheat threshed out 35 bushels per acre.

The band boys have very fine instruments and make some fine music Saturday evenings.

Wheat is not moving much yet. It is of good quality, but rather smutty.

The R. R. Co. will send a lady operator soon to help our agent through the busy season.

REX.
