## **A Bad Bruise.**

Lonza James, who is threshing on the J. W. Widdifield farm near Leal, met with quite a painful accident to-day—in having his right arm badly bruised. He had filled the oil cup on the axle of a wagon and was replacing the cap when the team started and made a sharp turn and his arm was caught between the wheel and loaded tank. Dr. Wanner dressed the wound and altho it will be several days before he can use his arm again, he is glad it was no more serious
