

## LEAL LOCALS.

Balls and base ball furnish excitement here, any time and most of the time.

The A. O. U. W. dance at Society Hall, was largely attended last Wednesday evening. It rained after midnight and the harder it rained the harder they danced till daylight. The music was good and receipts large.

Many attended the dance Friday night at the barn warming of Walter Nelson. He has just finished a fine barn and that is where they kept it up till late.

The Leal base ball club went to Rogers Saturday and were defeated the first time this year by the Rogers boys. The score said to be 85 or 86 in the shade to 2, in favor of Rogers. Still we have a good team here.

The church society have been making some necessary improvements round about the church.

Two McCormick harvester men, Mr. Young and another, have been in town nearly a week.

A. E. Lundy has painted his agricultural implement and carriage repository building. Joe painted it red - but not the town.

The Woodmen had a pleasant entertainment at Society hall last Saturday night with Prof. Horace Huron to keep them laughing. He travels from Portland, Oregon to Portland, Maine, giving these entertainments and the Woodmen secured him. He is first class.
