

# Stable Burns Down!

---

**Horses, Harness and Grain Destroyed  
in a Fire on Hoffman's  
Farm.**

A light frame stable on Will Hoffman's farm four miles north-east of Wimbledon was destroyed by fire at noon yesterday. Four head of horses, two sets of harness and a considerable quantity of grain were also consumed. Five other horses that were tied in the barn at the time broke loose and escaped. The premises are temporarily occupied by Jas. Simpson, who is working the land, and the family was at dinner when the flames were discovered. Will Simpson was quite severely burned in an attempt to save the horses. The fire caught from an adjoining field where the grass was being burned off before breaking.
