

JACKSONVILLE, N. C., July 10.—

Jake Isely and A. W. Porter returned on Sunday night from a trip to southern Alberta where they had spent a week looking over that country. They are both much pleased with the appearance of the country and with the prospects for profitable investment and Mr. Isely bought a half section and has an option on the other half of the section. They report crop conditions there as ideal and did not see a poor piece of grain in that section.
