

A FINE HERD

**H. N. TUCKER HAS ONE OF THE
FINEST HERDS IN NORTH DA-
KOTA.**

H. N. Tucker of Courtenay, who is breeding Red Polled cattle, has made some very good sales of his stock during the past year.

Four years ago, he laid the foundation of his herd by purchasing a few heifers of high quality. Since that time he has made it a point to look out for good individuals that were offered for sale and in this way has built up a herd of high class cattle. Out of ten young bulls, which he had last spring, he has but one left, having sold the balance during the summer. Recently bulls have been shipped to V. E. Grant, of Cuba, N. D. and E. D. Wallace, at Page, N. D. Wherever this stock is shipped out, it gives the best satisfaction. For the past three years, Mr. Tucker has exhibited the herd at the leading fairs in the state, and has the goods to get the premiums.

Red Polled cattle are known the world over as the dual purpose kind, both being rich in beef and milk producing qualities. They are therefore a very practical class of stock for the farmer to raise. They are all of a uniform color and never have horns.
