

## School Notes

The schools will try to observe Arbor Day, which is set for April 27, by Governor Sarles.

Prof. Van Tassell visited Fargo and other points in the eastern part of the state during the week. He also attended the Northwestern Teachers' Association Friday and Saturday at Minot.

The Agricultural college at Fargo is making considerable improvements this spring in the way of fitting up walks, drives and beautifying the grounds. The new Carnegie library which will cost about \$19,000, is nearly completed.

Let every pupil be on hand Monday morning to finish the remaining two months of the school year. These are the two most important months as they enable the pupil to round out the year's work and to obtain a standing that will pass him into the next higher class at the beginning of the coming year.
