Journal, Aug. 15—Late reports from Valley City, as to the condition of George House, is that he is out of danger, unless some new complications should set in. This will be good news to his many friends.

A Homestead of the American Yoe-men was instituted here last night by State Forman Lason, of Casselton, and Deputy J. W. Riley, who for the past three weeks has been here and secured the membership. The lodge starts out with twenty four charter members, and its chance for growth is very favorable.
