

Kensal Items

Journal, May 23—The Kensal Cornet band has recently been reorganized under the leadership of W. G. Norrdin. Kensal has several excellent musicians who, under the able guidance of Norrdin will make an excellent showing from which our citizens will acquire much pleasure and benefit through the summer months.

Mr. Andrew Thompson has been appointed postmaster at Kensal to succeed O. E. Holmes who resigned several months ago. Mr. Thompson is among the first citizens here and the recognition is well merited. The office will be moved from its recent location to the furniture store annex recently vacated by the W. E. Maynard barber shop. A. Pederson is the assistant postmaster.

Some time during Sunday night the west wall of the outside bin at the Woodworth elevator gave way and spread something like 10,000 bushels of wheat over the ground and the manager, Mr. White, has been compelled to work overtime in order to gather it up. Luckily he had room in the elevator for the grain so he had no delay in getting to work to pick it up and as the ground is dry and clean it will be no great loss only the broken lumber which constitutes the wall.
