

This morning about ten o'clock fire broke out in the home of Mr. and Mrs. Frank Milne and before any one arrived on the scene the fire had gained such headway as to be entirely beyond control and the house and all the contents were consumed. Mr. and Mrs. Milne will feel the loss keenly as everything they own except what they had on their backs is gone. Just how the fire originated is not known but it is supposed that a good fire was left in the stove and it caught from that. The good people of Courtenay gave them a nice little sum which will help out just at this time.
