

The Osborne & McMillan Elevator Co. have closed their elevator at this point for the season and their local agent, O. C. Jacobson, has been transferred to the company's elevator at Elbow Lake, Minn., and he left last night for that place. His family expects to follow in the early part of September and will occupy a house which they own at Elbow Lake. Mr. Jacobson has been agent at that point for the same company for twelve years before coming here and though he regrets to leave his many friends here he is glad to return to his home town.
