

Farmers Elevator⁶ Reorganized

WILL BE KNOWN AND INCORPORATED FOR A COMBINED CAPITAL OF \$15,000.

OFFICERS ELECTED

MAY HANDLE LUMBER, COAL, WOOD, HARDWARE AND MERCHANDISE BESIDES GRAIN.

At a meeting of the stockholders of the Farmers Elevator held at the fire hall Thursday of last week the business coming before the meeting was thoroughly discussed by all present and steps were taken in effecting a new organization. The new firm will be known as The Farmers Co-operative Association of Courtenay and will be organized under the laws of the state for a capital of \$15,000. It will be the purpose of the corporation to deal in the retail grain business but if conditions warrant it may also take up the advisability of dealing on a strictly co-operative basis for the benefit of the stockholders, in other products and manufactures. By-laws were drawn that permit the handling of coal and wood, lumber, hardware, implements and merchandise of any kind, provided the board of directors deem it expedient to branch out along these lines. The by-laws drafted in part at the time restrict all stockholders from possessing more than \$1,000 worth of shares at any one time and each stockholder can only have one vote no matter how many shares he may have in the company. The by-laws in this respect provides, however, that one vote may be given by proxy in case of the owner being unable to attend any of the meetings.

J. H. Albrecht, a prosperous farmer living southwest of town, was elected president of the company, with Loran Nichols as treasurer and it is expected that he will also be elected secretary at the next meeting to be held.

The following are the directors elected for various terms ranging from two to four years: Hans Nelson, A. J. Gorthy, Wm. Reid, John Kasper, S. K. Wright and Frank Kellogg.

A directors' meeting was held Saturday and a committee appointed to draft additional by-laws. The new company has plenty of capital to float the new organization and by securing the services of an efficient manager the undertaking should be a paying one, at least from a standpoint of keeping up prices of grain, increasing grade, and lessening dockage of the grain sold by the farmer.

KENSAL

Mrs. J. S. Tufford has been suffering the past week from an attack of pleurisy. At the present writing she is much improved and a speedy recovery is looked for.

Mrs. E. Y. Greenleaf of Rock Rapids, Ia., stopped off enroute for western Canada, for a few days visit with her sisters, Mrs. F. L. Nichols and Miss Gertrude Thompson.

Bennie Jones, of Jamestown,

and Robert Muntz, of Bismarck, came over from Jamestown in the former's car Monday morning and spent the day at the J. E. Jones home. Miss Lulu Jones returned with them to Jamestown for an extended visit.

C. E. McKinnon visited in Courtenay Saturday.

H. B. Postlewaite, of Carrington, was in town Monday transacting business.

L. C. Lane and family Sundayed at Courtenay.

Last Wednesday the ball team went down the line and played two games, the first with Leal, in the afternoon, resulting in a victory for Kensal; score 31 to 6. In the evening a game was played with Rogers at that place which was won by the home team by a score of 3 to 0. The game with McHenry Sunday, played at McHenry, resulted in a score of 5 to 4 in favor of Kensal.

Several parties of fishermen have gone from here to Spiritwood lake during the past week and in all instances came home well pleased with the sport.

THE FLY DOES SCRAPE HIS FEET

You may scrape your feet before going in—but we don't know. Perhaps you always brush your clothes on the back porch—we don't know.

We do know that the fly is particular. He scrapes his feet and brushes his coat—always—inside your house. A fly is like a drunken man, he has nothing to do and hunts up a busy person to play with.

Formerly fly screens were deemed a luxury—now it is known they are a necessity. Scientists have proven that flies are responsible for the spread of many of the most dangerous diseases, such as typhoid, diphtheria, dysentery and tuberculosis. Our screens were especially built for us in Detroit, Michigan. They represent the highest perfection in screen construction. The wire cloth is strong and painted black. The wood is kiln dried pine. Our screen windows fit; our screen doors do not rattle. See them—they are "Quality Goods". Rogers Lumber Co., L. A. Geise, manager.

For Sale

Fifty young pigs from eight to ten weeks old. Enquire at my farm on Sec. 17-142-62, three miles north of Spiritwood lake. 35-6 Joe Cysewski.

OFFENDING BLACK BOTTLE.

A church member in a lonely district of Saskatchewan absented himself from services for some months. On being approached on the subject he said he was sorry, but it was impossible to attend any more. He was pressed to give reasons, and at length said it was owing to the bad conduct of the superintending clergyman and catechist.

He and others had witnessed them drinking when driving round on their visits. They had passed a black bottle from hand to hand. It was impossible to attend the ministry of such men. Inquiries proved that the offending "bottle" was a pair of field glasses with which the drivers surveyed the surrounding country and tried to locate the various churches, shacks and trails!—Sunday at Home.
