

Pleasantview Notes.

Still it rains and everything is lovely when it rains.

Still the population of Pleasantview is increasing for Christ Olson says a boy has arrived at his home and Christ has decided to keep him and run him for president in the near future.

W. W. Bemis and family went to camp meeting on July 1st.

Harry Monder and Miss Anna Bond took in the camp meeting at Ashdebulah on July 1st.

We learn that John Bradford and wife have returned from the world's fair. Come up to Pleasantview Jack and tell us all about it.

Mr. Riley Sloan arrived from Iowa about July 1st. Glad to see you back Riley.

The ice cream social held at the Bemis school house was socially and financially a success. The school house was filled to overflowing and lots of them stayed outside and occasionally crowded in and had some ice cream and then went out and walked and then went in and took some more. Nearly \$16 was raised and the proceeds was sent to Mount Lawn Children's Home. We thank our friends for coming out and helping us in a good cause, and especially our Scandinavian friends who came out, and should we ever give another we hope they will come again.
