

A Bad Injury.

Tony Haas suffered a bad injury Monday morning by being thrown in front of the platform of a Deering binder while the team hitched to it was running away. It seems that Mr. Haas had hitched up preparatory to going out into the field when the horses attached to the binder became frightened and started to run. Mr. Haas was thrown from the seat, and fell on the platform, his left foot slipping over in front of the sickle bar and getting caught just above the shoe top. It was badly hacked and chewed up, the tendon being cut and the flesh and bone terribly injured. He was brought to this city and the physician dressed the wounded member and he is now getting along as well as could be expected but he will be laid up for a long time and will have a stiff pedal extremity for some time to come.—New Rockford Transcript.
