

Wm. Hoggarth, who lives 11 miles south of McHenry, met with quite a serious accident Tuesday evening which will lay him up for some time. While out doing the chores some way he fell and one of the horses which was loose stepped on his leg, breaking it just below the knee. He was taken to the house and Dr. LeBien was summoned, who bound up the leg and relieved the pain as much as possible. Mr. Hoggarth has the sympathy of his friends, who hope to soon see him out again. —McHenry Tribune.
