

Mrs. John Winch and daughters of Fried met with a severe accident on Sunday morning while going to the Polish Catholic church. The horses became frightened at a badger hole and in trying to check them one of the lines was broken and the team became unmanagable. They ran into a wire fence about a quarter of a mile from the church and the wagon was overturned and Mrs. Winch and the family thrown violently to the ground. Mrs. Winch received a broken arm and Miss Mary was badly cut on the leg and otherwise bruised by the wire fence. The wagon was also considerably injured and the team scratched up some.
