

Wal. Sinclair broke his leg in two places Monday morning. He was out plowing with four oxen. When he started the oxen up they did not start together, two starting first, causing the whiffletrees to fly back, catching Mr. Sinclair's leg between the plow and whiffletrees and breaking it just below the knee and just above the ankle. Doctors Bergstrom and Wanner were called and soon had the broken limb set in good shape. It is a very unfortunate accident to Wal. and we hope he will have good luck and soon be on his feet again.
