

---

Out of respect to the family of John J. Wamberg, who is one of their number and who has just sustained the loss of their only child, and also owing to the prevalence of scarlet fever in a very malignant form in Hope, the members of the Daughters of Rebecka of this place have deemed it wise to postponed the institution of of their lodge which was to occur on next Thursday evening and also the banquet and ball, which was to be on the following evening, to an indefinite date.—Hope Pioneer.
