

---

R. J. Biorn has almost recovered from the injuries received from the runaway on the 15th. He has been very sore and lame but no bones were broken. We were in error last week in stating that the horse kicked and ran away. Mr. Biorn says that Mr. Rhodes ran into his sulky and locked hubs, and that frightened the horse Biorn was driving and then he kicked and ran away, so that in one sense the horse was not to blame.
