

Mr. George Gullickson returned home last Saturday afternoon from Valley City bringing with him the remains of his wife. Last Thursday week a 3½ pound tumor was taken from her by Dr. Platou, the operation being very successful, and for five days deceased was doing well. Later other complications set in and another operation was necessary, her life being at stake whether the operation was performed or not. She chose to risk the operation and died as a result. Mrs. Gullickson was 53 years old. The funeral took place last Sunday.
