

Harold Mayer, son of Mrs. Adolph Kjelson of Mafel, was taken to Fargo last Saturday by his mother where they were to consult physicians. Harold was at Valley City this winter attending school and suffered from an attack of lagrippe from which he does not seem to recover. He came home a couple of weeks ago, suffering from what seemed to be plurisy, but with the best care and treatment he has seemed not to improve. It is hoped that he will soon find relief.—Sentinel.
