

---

—Our station agent received the formal announcement from the officials las' Saturday, of the change in name of our railway, our branch with three or four other roads consolidating under the name of "The Great Northern Railway Line." It is currently rumored that it is known upon good authority that our branch will be extended through to Devils Lake as the main line, and that the contract has been let to Foley Bros., of Minneapolis, who are to commence work on same in May. We give this for what it is worth, as we have been unable to find out anything definite regarding the matter.
